Start with a useful task

Use the official tools discussed in this reel.

Choose a learning goal

Browse the product tracks for Claude, Claude Code or the Claude Platform and select the course matching your experience.

Practice alongside a lesson

Use a small example project and complete the exercises instead of only watching the material. Keep any provider usage within your own plan.

Check understanding

Use the course’s quizzes or completion requirements and repeat the task without copying the walkthrough.

Check the real result

Keep one repeatable example and inspect its actual output.

Use the current Academy

The official current site is academy.claude.com; older Skilljar courses are being migrated.

Check course details

Durations and completion requirements vary; a reel’s nine-hour figure is not universal.

Keep the right account

Sign in with the Claude account that should retain your learning progress.

Official sources

Consult current upstream setup, licenses and service terms.
